INDIAN POLICE MEDALS.

New Delhi, the 1st February 1937.

No. F 114/25/36-Police.—His Excellency the Viceroy and Governor-General of India has been pleased to confer the Indian Police Medal on the following officers —

Name of officer, rank and statement of services for which the decoration has been conferred.

MADRAS.

1. *Sir Charles Banks Cunningham*, Kt., C.I.E., *Indian Police.*—Sir Charles Cunningham has a long record of distinguished service. He joined the Indian Police in December 1904, as probationary Assistant Superintendent of Police and held various charges as Assistant Superintendent of Police, Deputy Commissioner of Police, Madras City, District Superintendent of Police, Commissioner of Police, Travancore, and Commissioner of Police, Madras, till 1930. In May 1930, he was appointed to officiate as Inspector-General of Police and was confirmed in that appointment in October of the same year.

In 1929, he was awarded the King's Police Medal for general administrative ability and for his special services in connexion with a difficult strike situation in Coimbatore in 1927, and in 1931 he was awarded the "C.I.E." He was knighted in 1933 and was awarded the Silver Jubilee Medal in 1935. His service has throughout his long service been and continues to be distinguished by his great ability and devotion to duty.

2 *Donald Crossley, Indian Police.*—Mr Crossley joined service as probationary Assistant Superintendent of Police in December 1922, and held various charges as Assistant Superintendent of Police and officiating District Superintendent of Police till 1930. Since 1930, he has continuously held charge of a Police district and was confirmed as District Superintendent of Police in 1934. In all the posts he has held he has shown himself to be a good and reliable officer.

Since 1933, he has been District Superintendent of Police of the heavy criminal district of East Godavari, a district infested by criminal gangs and other wandering criminals. In this difficult charge, Mr. Crossley's untiring energy and thoroughness have achieved very notable results alike in the detection and in the prevention of crime. In particular two features of his work have shown such special initiative and ability as to deserve special recognition. He has succeeded in inducing the wandering criminal gangs of Telaga Pamulus which have ravaged the northern districts of the Presidency from time out of mind to settle voluntarily on lands which his enthusiasm discovered for them, and as a community to give up their criminal lives. Secondly, in a greater measure [illegible] than in most other districts, he has succeeded in establishing the co-operation with the Police of the v[illegible] sections of his district, which has not only [illegible] such results in the control of criminals and crime [illegible] marked degree the relationship between his district force and the general public.

3 *Rao Sahib Kalandavelu Visvanatha Pillai, Deputy Superintendent of Police.*—This officer entered the Police service as a Sub-Inspector in 1905, and by dint of hard and steady work rose to the rank of Deputy Superintendent of Police. For his distinguished service, he was awarded the title of "Rao Sahib" in 1931. He thereafter did fine work during the Civil Disobedience Movement in the Tuticorin subdivision in respect of which the Inspector General of Police referred to him in appreciative terms as a "tower of strength." He brought to book the offender concerned in an important and complicated bank fraud case in Tuticorin and also did outstanding work in a case of extensive note forgery in the Rajahmundry subdivision. Thoroughly dependable and an indefatigable worker as Deputy Superintendent of Police, Kallar Reclamation, since 1933, his work has contributed greatly to the progress achieved in Kallar reform.

4. *Pelle Purushotham, officiating Inspector of Police.*—This officer entered service as Sub-Inspector on 23rd October 1918. After officiating as Circle Inspector in 1934 and 1935 he went out as Circle Inspector of Police to Bellary, and thence came to Chittoor district in December 1935. Whilst he maintained a consistently high standard of work, the one remarkable and continuing trait in his character as a man and as police officer has been his thorough straightforwardness. He took charge of Kalahasti circle at the end of last year when the crime and criminals of the circle were out of control. Whole villages had taken to the systematic organization of crime. Two batches of criminals under influential leadership were indulging in crime and the local Police Force had lost credit. This officiating Inspector tackled the difficult situation with which he was faced vigorously and systematically and by his own personal unremitting efforts and the stimulation and guidance of his subordinates broke up all the considerable criminal organizations at work and achieved outstanding success.

5. *Rao Bahadur Nandanur Harihara Ayyar Jagadisa Ayyar, M.B.E., officiating District Superintendent of Police.*—Mr. Jagadisa Ayyar has a record of long, faithful and distinguished service and is an officer of outstanding merit. He entered the Police in 1902 and is now, on the verge of retirement, officiating as District Superintendent of Police in an important district. His service throughout his career has been distinguished by tact, hard work, intelligence and ability. As Assistant Commissioner

of Police, Madras City, during the years 1918–28 during which time he more than once officiated as Deputy Commissioner of Police, his work was deserving of high praise and in 1926 he was awarded the title of "Rao Bahadur." On several occasions during his service he has been specially chosen for work of a delicate nature which he has performed with marked success. He rendered particularly good service during the Civil Disobedience Movement and in 1931 at Madura displayed judgment and decision in handling a dangerous situation in which he had to open fire on a mob; for this he was awarded the "M.B.E." In 1933 and 1934 he officiated as District Superintendent of Police in a heavy district and carried out his duties in a very competent manner.

6. *Karar Sreenivasa Appangar Rajagopala Appangar, Inspector of Police.*—This officer entered the department on 10th October 1906, as Sub Inspector of Police. He was promoted to be Inspector of Police on 1st June 1922. His work through his long service has been characterised by energy and perseverance, tact and ability, and he has always shown that he could be thoroughly depended upon. Since he took charge of Sattur circle of Ramnad district in 1934, he has broken up many criminal gangs and brought many active and notorious criminals to justice. Bomb outrages had been a feature of the circle crime and had defeated his predecessors. He traced the sources of supply of explosives, discovered the bomb makers at work and put a stop to their nefarious activities. In 1934 and 1935 by his personal work he hunted and dealt with several active gangs of burglars and in 1935 he traced and arrested one Vedakalli Muthu[illegible]heran, a desperate and dangerous absconder from justice, who had for long defied arrest. His [illegible] faction ridden and by his patient work [illegible]ment the leaders of factions he ga[illegible]re peace.

[illegible]ngar, *head constable.*—[illegible]yyar has a record of 35 years' good service to his credit. He was enlisted as a police constable on 1st July 1901, and by dint of good work rose to the position of head constable in 1908. In the year 1921 he was chosen for Special Branch work in view of his intimate knowledge of men and conditions in Coimbatore district and speedily distinguished himself. He rendered valuable service during the Civil Disobedience Movement as also in the Madras Conspiracy cases of 1933 in which he took part in arresting one of the members of the gang armed with a loaded revolver at Coimbatore. In view of his long and meritorious service he was granted Their Majesty's Silver Jubilee Medal in 1937. His outstanding good work and exemplary conduct through his long service deserves recognition.

8. *Rao Sahib Nanguneri Venkata Acharya Tatadri Appangar, Inspector of Police.*—This officer enlisted as a Sub Inspector of Police in 1909, in the Tanjore district. He did excellent work in important and difficult stations of the district and in Madras City, in recognition of which he was promoted to the rank of Inspector of Police in 1925. As Inspector he was specially selected to work in important circles of a number of districts. These charges were a real test of efficiency and character and throughout this period his work was of a high order. He showed outstanding ability in dealing with the Civil Disobedience Movement of 1930 in Karaikudi circle, Ramnad district, where, with influential supporters, it would have assumed serious proportions but for his prompt and firm handling of the situation in its initial stages. Again in Tirunelveli circle in 1931 this officer effectively put a stop to the intensive picketing which was being conducted on an organized scale, and promptly brought to book the miscreants who threw bombs on Police quarters by way of reprisal. He did conspicuous work in the reclamation of the Kullars in the Madura district. He joined the Special Branch of the Criminal Investigation Department, Madras, in March 1933. He distinguished himself in the investigation of the raid on the Travancore National Bank at Outacamund in 1933, a crime by revolutionaries from Northern India, which was intended to be the prelude to public outrages at Ootacamund and Madras. For this case, he was awarded the title of "Rao Sahib." Since then he has done work of exceptional value in the Special Branch. He is a thoroughly straightforward officer and has consistently fine work during his long and distinguished service deserves recognition.

9. *Shalingar Srinivasulu Nayudu, Sub-Inspector.*—Sub-Inspector Srinivasulu Nayudu enlisted as a constable in the Chingleput district in 1907. His initiative and intelligence marked him out for preferment and he was promoted to head constable after four years' service. He was for some years in charge of Guindy Government House out-post where he earned commendation from successive Military Secretaries. He earned promotion to the rank of Sub-Inspector in 1918, and soon justified his selection. His work during the Royal visits of H.R.H. the Duke of Connaught in 1921, and of H.R.H. the Prince of Wales in 1922, was especially commended. He showed marked detective ability and devotion to duty and displayed considerable personal courage in 1930, in seizing an armed man who resisted arrest. He was selected for appointment in the Crime Branch of the Madras City Police where he has continued to render meritorious service. He has been engaged in many investigations of a difficult and complicated nature and has constantly displayed a loyalty and devotion to duty worthy of recognition.

10. *Chinappa Pillai Arthanari Pillai, head constable.*—First-grade head constable Chinnappa Pillai Arthanari Pillai was enlisted on 6th April 1907, was made a probationary third grade head constable on 21st March 1912 and was promoted to the first grade on 1st January 1930. He did particularly good work in connexion with the recapture of a notorious gang of dacoits who had escaped from the Sub-Jail, Tiruppattur, in 1919. He took part in the dispersal of a dangerous mob at Gudiyattam on 7th July 1930. The Sub-Inspector in charge of the party received the King's Police Medal. During his prolonged service he has shown very conspicuous devotion to duty and ability.

11. *Channakrishna Nayudu Ramasami Nayudu, head constable.*—He joined Police department in Salem district as a constable on 19th February 1906, rose to the rank of head constable on 1st August 1916, and acted as Sub-Inspector on three occasions. He has earned 20 good service entries and 85 rewards for special services. His loyal service of over 31 years is an unbroken record of steady good work. He is now 53 years old and is nearing retirement. His prolonged service has been characterised by reliability and very special detective ability and merit.

12. *Mohammad Abdul Wahab Khan, Inspector of Police.*—This officer joined the Force in 1908 as a Sub-Inspector in which capacity he had a reputation for honest and efficient work. During the War he did excellent work at Assistant Recruiting Officer, Chingleput, for which he earned a badge and award from the Local Government. During this period he was of great assistance in dealing with trouble with the sepoys at St. Thomas' Mount in 1916. During the Khilafat and Non-Co-operation Movements in 1921 and 1922 he rendered particularly valuable service in the keeping in touch with the movements and the leading agitators. He rendered valuable service in connexion with the Royal visit in 1921 when he was placed on special duty and also in connexion with the rioting in the Buckingham and Carnatic Mills in 1932. His work during the Pulari operations in the Nirasapuram Agency was also noteworthy. He was appointed as Inspector in 1925 and has done consistently good work in that capacity. In Egmore Railway Police circle he has shown much interest and persistence and has achieved useful results in dealing with crime and criminals. No. 4.—

The following notification is issued in supersession of Notification No. 4, dated 19th March 1936, published in the *Fort St. George Gazette*, Part II, dated 17th March 1936:—

In exercise of the powers conferred on him under section 4 (g) of the Madras Abkari Act, 1886, the Commissioner of Excise hereby prescribes under sections 10, 24 and 29 (2) (j) of the Act, the following rules for the levy of fees on the volume of sales, etc., and for the issue of licences for the compounding, blending, bottling and sale of potable foreign liquors, Indian-made foreign spirits, Indian-made rectified spirit, coconut toddy arrack and beer brewed in India from and after the 1st April 1937 within the limits of the Madras Presidency:—

1. The term 'foreign liquor' in these rules includes all wines, spirits and beer imported into the Madras Presidency by sea or land; imported plain rectified spirits on which the tariff rate of duty has been paid and beer brewed in India duly excised at the tariff rate but excludes Indian-made foreign spirits, coconut toddy arrack, beer brewed in India and Indian-made plain rectified spirits on which duty at the tariff rate has not been paid, beer imported in a condensed form and afterwards converted into potable beer, denatured spirits and ordinary arrack

'Indian-made foreign spirits' is spirit manufactured and compounded in British India and made in colour and flavour to resemble gin, brandy, whisky or rum imported from foreign countries and includes 'milk punch' and other liqueurs into the composition of which only such spirit enters. It is excised at Rs. 21-14-0 per proof gallon, its sale is permitted in all foreign liquor shops except those licensed for the exclusive sale of beer, medicated wines and rectified spirits.

The duty on Indian-made rectified spirits is Rs. 21-14-0 per proof gallon.

'Coconut toddy arrack' is spirit manufactured from toddy at the Chowghat distillery in Malabar and excised at Rs 17-8-0 per proof gallon; its sale is permitted in all foreign liquor shops except those licensed for the exclusive sale of beer, medicated wines and rectified spirits. The maximum limit of private possession is two Imperial gallons.

'Indian beer' is beer brewed in India, (a) which contains at least two bushels of malt and two pounds of hops per hogshead and in the manufacture of which jaggery or crude cane-sugar is employed, (b) which is brewed at a higher original gravity of 1.058 degrees on a standard saccharometer and (c) maximum price of which at the brewery is Rs. 10 per hogshead plus the excise duty imposed at the time of issue

NOTE.—(1) The minimum strengths at which imported and Indian-made Indian spirits can be sold are 35° U P for gin, 25° U P for Cakes Ale arrack and coconut toddy arrack and such other spirits as may be prescribed by the Commissioner of Excise from time to time and 25° U P for all other kinds of spirits including Italian Arrack, except denatured spirits.

(2) Holders of foreign liquor licences should not dispose of any spirit imported by them and cleared from the Customs Bonds on payment of provisional duty before acquainting themselves that it is not below the minimum saleable strength. If on test at the Customs Laboratory it is found that any such spirit is below the minimum saleable strength and has been sold, the excise rules will be rigidly enforced against such licensee.

(3) 'Rectified spirits' includes 'Absolute alcohol.'

2. (1) Gallonage fees shall be levied at the following rates on the volume of sales of liquor under such licences and in such manner as may be prescribed by the Commissioner of Excise from time to time —

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other sources defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in the tender notice, or as required by the Executive Engineer, in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet, is of opinion, that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard 'Preliminary Specification' regarding payment of seigniorage, tolls, etc.

8. The rate tendered should be for finished work in all inclusive of all incidental charges connected with its execution and should be quoted in rupees, annas and in words of three pies. The rates should be written in words and figures and the units in words. The tender should be written legibly and free from erasures, overwritings or corrections of figures. Corrections where unavoidable should be made by crossing out, initialing, dating and re-writing.

9. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump sum amounts for items not called for shall not be included in the tender. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

10. The materials that will be supplied by Government and the places and rates at which they will be supplied, are noted at the end of the schedule accompanying the tender form. Tenderers must accept the materials at these rates and places specified, and shall quote their price for finished work accordingly. Notwithstanding any subsequent change in the market value of these materials, the charge to the contractor will remain as originally entered in the written contract. No cartage or incidental charges will be borne by Government in connexion with this supply

11. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorising others to receive payment on the contractor's behalf.

12. If further necessary information is required, the Executive Engineer, Kistna Central Division, will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

This earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender, whichever is earlier. This refund will be authorized by the Executive Engineer by suitable endorsement on the chalan. The earnest money will not be received in cash or currency notes by the Public Works Department officers, save in exceptional cases, where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date, on the back of all the currency notes given by him, whatever their denominations may be.

The earnest money will be returned in the case of the successful tenderer and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender make a security deposit of rupees one hundred only, in one of the forms prescribed in the Madras Public Works Account Code and sign an Agreement in the proper departmental form (i.e., K.2) for the due fulfilment

If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money.

5. The tenderer shall examine closely the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and sign the duplicate office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender and rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. He should also inspect the quarries and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the descriptive specification sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in this tender notice or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the descriptive specification sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the descriptive specification sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of contract rate pay any extra charges for lead or for any other reason in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the Standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

Rates or lump sum amounts for items not called for shall not be included in the tender. No attention which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities of contract, the drawings, specifications, or quantities accompanying same will be recognized; and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate, rates which are not open for inspection by tenderers.

12. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorizing others to receive payment on the contractor's behalf.

13. If further necessary information is required, the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

2. Tenders must be submitted in sealed covers, and should be addressed to the Superintending Engineer, Bellary Circle, the name of the tenderer and the name of the work being noted on the cover.

If the tender is made by an individual, it shall be signed with his full name and his address shall be given. If it is made by a firm, it shall be signed with the co-partnership name by a member of the firm, who shall also sign his own name, and the name and address of such member of the firm shall be given. If the tenders made by a corporation, it shall be signed by a duly authorized officer who shall produce with his tender, satisfactory evidence of his authorization. Such tendering corporation may be required, before the contract is executed, to furnish evidence of its corporate existence.

3. Each tenderer must pay, as earnest money, a sum of rupees one thousand and eight hundred only into the branch of the Imperial Bank of India or into the Government treasury or sub treasury within the jurisdiction of the Superintending Engineer concerned to the credit of revenue deposits on behalf of the Superintending Engineer of the Bellary Circle and enclose with his tender, the challan rendered accordingly. This earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender, whichever is earlier. This refund will be authorised by the Superintending Engineer by suitable endorsement on the challan. The earnest money will not be received in cash or currency notes by the Public Works Department Officers, save in exceptional cases, where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date, on the back of all the currency notes given by him, whatever their denominations may be.

The earnest money will be retained in the case of the successful tenderer and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Superintending Engineer of acceptance of his tender make a security deposit of rupees one thousand and eight hundred only in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental form for the due fulfilment of the contract. Failure to attend the Circle office on the date fixed in the written intimation from such office or to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money.

5. The tenderer shall examine closely, the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and sign the divisional office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender and rates which shall be for finished work in all. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days, in the office of the Superintending Engineer, Bellary Circle, or the Executive Engineer, Kurnool Division.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the descriptive specification sheet. The best class of materials to be obtained from the quarries or other sources defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in this tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or

sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Superintending Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage rolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) test, inspection and rejection of defective materials and work;
(2) carriage;
(3) construction plant;
(4) water and lighting;
(5) cleaning up during progress and for delivery;
(6) accidents;
(7) delays, and
(8) particulars of payment.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Kurnool Division, or as set forth in the conditions of contract. The tenderer will, however, have his lump-sum tender on this schedule of quantities. He shall quote specific rates for each item in the schedule, as the rates should be in rupees, annas, and in sums of the pice. The rates should be written both in words and figures and the totals in words. The tenderer should also show the totals of each item and the grand total of the whole contract. The schedule accompanying the tender shall be written legibly and free from erasures, overwritings or conversions of figures. Corrections, where unavoidable, should be made by crossing out, initialling, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized, and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The price at which and the source from which certain particular materials shall be obtained by the contractor are given at the end of the schedule accompanying the tender form. Tenderers must accept the material at these prices, and shall quote their price for finished work accordingly. Notwithstanding any subsequent change in the market value for these materials, the charge to the contractor will remain as originally entered in the written contract. No carriage or incidental charges will be borne by Government in connexion with this supply.

13. The attention of the tenderer is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of this programme will be the date on which the site (or premises) is handed over to the contractor.

Period after date of commencement	*Percentage of work completed (based on contract lump-sum amount).*
One month	25 per cent.
Two months	50 per cent.
Three months	75 per cent.
Nine months	100 per cent.

14. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorizing others to receive payment on the contractor's behalf.

15. If further necessary information is required, the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

16. The Superintending Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

17. The qualifications of the supervising staff employed by the contractor in the execution of the work will be given due consideration in awarding the contract. The tenderers should therefore state in clear terms, whether they employ such technical staff, and if so, to give the qualifications of such staff and the extent to which they will be employed on the work.

He shall also carefully study the additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such specifications, Descriptive Specification Sheet, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days in the office of the Superintending Engineer, Dowlaishwaram Circle.

6 The tenderer's attention is directed to the requirements for materials under the section "Materials and Workmanship" in the conditions of contract, Appendix XXI (c) to the Madras Detailed Standard Specifications.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed supply. He should also inspect the quarries and satisfy himself about the quality and availability of materials The names of quarries, etc., in preform certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other source defined shall be supplied. In every case the materials must comply with the relevant standard specifications. Samples of materials as called for in the standard specifications, or in the tender notice, or as required by the Executive Engineer, in any case, shall be submitted for the Executive Engineer's approval before the supply is begun If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason in case the contractor is found later on to have neglected the materials available. Attention of the contractor is directed to the conditions of contract, Appendix XXI (c) to the Madras Detailed Standard Specifications, regarding payment of seigniorage, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses of the conditions of contract, Appendix XXI (c) to the Madras Detailed Standard Specifications, dealing with—

(1) test, inspection and rejection of defective materials ;
(2) carriage ;
(3) accidents ;
(4) delays ; and
(5) section on particulars of payment.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9 A schedule of quantities accompanies this tender notice It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions or additions at the discretion of the Executive Engineer, Godavari Headworks Division, or as set forth in the conditions of contract. The tenderer will, however, base his tender on this schedule of quantities. He should quote specific rates for each item in the schedule and the rates should be in rupees, annas and in annas of three pies. The rates should be written both in words and figures, and the units in words. This schedule accompanying the tender shall be written legibly and free from blanks, overwritings or corrections of figures Corrections, where unavoidable, should be made by crossing out, initialling, dating and re-writing.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Extra or lump-sum amounts for items not called for shall not be

included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, specifications or quantities accompanying same will be recognized; and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers. The rates quoted should be for stack measurements.

12. The attention of the tenderers is directed to the contract requirements as to the time of beginning of supply, the rate of progress, and the dates for the completion of the whole supply. The rates of progress for the different groups shall be adhered to as given in the schedule. Date of commencement of this programme will be as specified in clause 16 below.

13. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power of attorney authorizing others to receive payment on the contractor's behalf.

15. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

16. The successful tenderer should start work within fifteen days from the date of signing the contract or 15th April 1937 and the latter will terminate on the 15th April 1938 but no quarrying of s[illegible] material will be permitted after the 1st April 1938.

17. The attention of the tenderer is specially drawn to the requirements of stacking of materials in notes (2) and (3) under materials on page 17 of the Madras Detailed Standard Specifications as amended by corrections slip No. 5 at pages 683-681 of the said specification. In the cases of stacks conforming in those instructions no void deductions will be made and the tenderer should take note of this fact in quoting his unit rates for such stacked materials.

18. If materials of any kind are urgently required to meet emergencies and in the event that the Executive Engineer considers that the contractor cannot cope with the additional supply or the expeditious supply to meet an emergency, the Executive Engineer shall have power to arrange such supplies through other agency from any quarry he may select.

19. The contractor shall make his own arrangements at his own expense for quarrying in and carting through private lands all or any of the materials, where necessary.

20. No materials should remain at any Government quarry or loading station after the expiry of the contract and the contractor should regulate his quarrying and carting accordingly. Materials left over after the date of closure of the contract are liable to be forfeited to Government. No claims of the contractor for the amounts advanced by him to the coolies, etc., during the currency or after the completion of the contract shall be entertained.

21. No materials shall be quarried from Government quarries in excess of Government requirements. All rejected materials at loading stations or quarries shall remain the property of Government and may be disposed of as the Executive Engineer thinks fit.

22. Payments shall be made for the quantities acknowledged by the unloading officers and as per stack measurements recorded in measurement books and after check-measurement and inspection by the superior officers where necessary.

23. The boats or punts should be promptly loaded on their arrival at the loading stations. In case they are delayed for over two days or 24 hours of daylight from their arrival hour at the loading station, demurrage charges at the rate of Rs. 3 per day per boat or punt of 12 hours of daylight or part thereof shall be recovered from the contractor. If the boat or punt reaches the loading station after 9 a.m. on any one day, the period of delay for the purpose of levying the delay charges shall be calculated from 6 a.m. the next day.

24. Berms intended for the Public Works Department and shown to the contractor shall not be utilized for stacking materials belonging to other departments or persons, failing which any materials so stacked shall lapse to the Public Works Department and the contractor shall make good any loss at his own expense to such other department or persons to whom those materials may belong.

25. The contractor shall not load any materials of bad or inferior quality on boats or punts and the Executive Engineer or his representative shall have the power to reject all such materials from any place. All charges incurred by the Government in conveying unloading and stacking such materials shall be recovered from the contractor.

26. The rates, except for materials in Group I, shall include all charges for the supply of materials at the loading stations, and loading them into boats or punts, and all incidental charges connected therewith. For the materials in Group I, a flat rate should be quoted for a reach (vide Schedule C) and this rate shall include all charges for the supply of materials, conveyed by any means unloaded and stacked at the site of work or works in that reach. The rate shall include all incidental charges also.

27. In the case of Dowlaishwaram and Sappers Hill Quarries, the contractor should obtain written orders of the Executive Engineer regarding the sites where quarrying has to be done.

WHEREAS India was a State signatory to the Protocol on Arbitration Clauses set forth in the First Schedule, and to the Convention on the Execution of Foreign Arbitral Awards set forth in the Second Schedule, subject to each case to a reservation of the right to limit its obligations in respect thereof to contracts which are considered as commercial under the law in force in British India;

AND WHEREAS it is expedient, for the purpose of giving effect to the said Protocol and of enabling the said Convention to become operative in British India, to make certain further provisions respecting the law of arbitration;

It is hereby enacted as follows:—

Short title, extent and operation.

1. (1) This Act may be called the Arbitration (Protocol and Convention) Act, 1937

(2) It extends to the whole of British India, including British Baluchistan and the Santhal Parganas.

(c) in one of such territories as the Governor General in Council, being satisfied that reciprocal provisions have been made, may, by like notification, declare to be territories to which the said Convention applies,

and for the purposes of this Act an award shall not be deemed to be final if any proceedings for the purpose of contesting the validity of the award are pending in the country in which it was made.

Stay of proceedings in respect of matters to be referred to arbitration.

3 Notwithstanding anything contained in the Indian Arbitration Act, 1899, or in the Code of Civil Procedure, 1908, if any party to a submission made in pursuance of an agreement to which the Protocol set forth in the First Schedule as modified by the reservation subject to which it was signed by India applies, or any person claiming through or under him, commences any legal proceedings in any Court against any other party to the submission or any person claiming through or under him in respect of any matter agreed to be referred, any party to such legal proceedings may, at any time after appearance and before filing a written statement or taking any other steps in the proceedings, apply to the Court to stay the proceedings, and the Court unless satisfied that the agreement or arbitration has become inoperative or cannot proceed, or that there is not in fact any dispute between the parties with regard to the matter agreed to be referred, shall make an order staying the proceedings. IX of 1899. V of 1908.

Enforcement of foreign award.

6. (1) Where the Court is satisfied that the foreign award is enforceable under this Act, the Court shall order the award to be filed and shall proceed to pronounce judgment according to the award.

(2) Upon the judgment so pronounced a decree shall follow, and no appeal shall lie from such decree except in so far as the decree is in excess of or not in accordance with the award.

CONVENTION ON THE EXECUTION OF FOREIGN ARBITRAL AWARDS.

Article 1.—In the territories of any High Contracting Party to which the present Convention applies, an arbitral award made in pursuance of an agreement, whether relating to existing or future differences (hereinafter called "a submission to arbitration") covered by the Protocol on Arbitration Clauses opened at Geneva on September 24th, 1923, shall be recognized as binding and shall be enforced in accordance with the rules of the procedure of the territory where the award is relied upon, provided that the said award has been made in a territory of one of the High Contracting Parties to which the present Convention applies and between persons who are subject to the jurisdiction of one of the High Contracting Parties.

To obtain such recognition or enforcement, it shall, further, be necessary:

(a) That the award has been made in pursuance of a submission to arbitration which is valid under the law applicable thereto;

(b) That the subject-matter of the award is capable of settlement by arbitration under the law of the country in which the award is sought to be relied upon;

(c) That the award has been made by the Arbitral Tribunal provided for in the submission to arbitration or constituted in the manner agreed upon by the parties and in conformity with the law governing the arbitration procedure;

(d) That the award has become final in the country in which it has been made, in the sense that it will not be considered as such if it is open to opposition, appel or pourvoi en cassation (in the countries where such forms of procedure exist) or if it is proved that any proceedings for the purpose of contesting the validity of the award are pending;

(e) That the recognition or enforcement of the award is not contrary to the public policy or to the principles of the law of the country in which it is sought to be relied upon.

(a) That the award has been annulled in the country in which it was made;

(b) That the party against whom it is sought to use the award was not given notice of the arbitration proceedings in sufficient

time to enable him to present his case, or that, being under a legal incapacity, he was not properly represented;

(c) That the award does not deal with the differences contemplated by or falling within the terms of the submission to arbitration or that it contains decisions on matters beyond the scope of the submission to arbitration.

If the award has not covered all the questions submitted to the arbitral tribunal, the competent authority of the country where recognition or enforcement of the award is sought can, if it thinks fit, postpone such recognition or enforcement or grant it subject to such guarantee as that authority may decide.

Article 5.—If the party against whom the award has been made proves that, under the law governing the arbitration procedure, there is a ground, other than the grounds referred to in Article 1 (a) and (c), and article 2 (b) and (c), entitling him to contest the validity of the award in a Court of Law, of the Court may, if it thinks fit, either refuse recognition or enforcement of the award or adjourn the consideration thereof, giving such party a reasonable time within which to have the award annulled by the competent tribunal.

Article 4.—The party relying upon an award or claiming its enforcement must supply, in particular:

(1) The original award or a copy thereof duly authenticated, according to the requirements of the law of the country in which it was made;

(2) Documentary or other evidence to prove that the award has become final, in the sense defined in Article 1 (d), in the country in which it was made;

A translation of the award and of the other documents mentioned in this Article into the official language of the country where the award is sought to be relied upon may be demanded. Such translations must be certified correct by a diplomatic or consular agent of the country to which the party who seeks to rely upon the award belongs or by a sworn translator of the country where the award is sought to be relied upon.

Article 5.—The provisions of the above Articles shall not deprive any interested party of the right of availing himself of an arbitral award in the manner and to the extent allowed by the law or the treaties of the country where such award is sought to be relied upon.

Article 6.—The present Convention applies only to arbitral awards made after the coming into force of the Protocol on Arbitration Clauses, opened at Geneva on September 24th, 1923.

Article 7.—The present Convention, which will remain open to the signature of all the signatories of the Protocol of 1923 on Arbitration Clauses, shall be ratified.

It may be ratified only on behalf of those Members of the League of Nations and non-Member States on whose behalf the Protocol of 1923 shall have been ratified.

Ratifications shall be deposited as soon as possible with the Secretary-General of the League of Nations, who will notify such deposit to all the signatories.

Article 8.—The present Convention shall come into force three months after it shall have been ratified on behalf of two High Contracting Parties. Thereafter, it shall take effect, in the case of each High Contracting Party, three months after the deposit of the ratification on its behalf with the Secretary-General of the League of Nations.

Article 9.—The present Convention may be denounced on behalf of any Member of the League or non-Member State. Denunciation shall be notified in writing to the Secretary-General of the League of

Nations, who will immediately send a copy thereof, certified to be in conformity with the notifications, to all the other Contracting Parties, at the same time informing them of the date on which he received it.

The denunciation shall come into force only in respect of the High Contracting Party which shall have notified it and one year after such notification shall have reached the Secretary-General of the League of Nations.

The denunciation of the Protocol on Arbitration Clauses shall entail, *ipso facto*, the denunciation of the present Convention.

Article 10.—The present Convention does not apply to the Colonies, Protectorates or territories under suzerainty or mandate of any High Contracting Party unless they are specially mentioned.

The application of this Convention to one or more of such Colonies, Protectorates or territories to which the Protocol on Arbitration Clauses opened at Geneva on September 24th, 1923, applies, can be effected at any time by means of a declaration addressed to the Secretary-General of the League of Nations by one of the High Contracting Parties.

Such declaration shall take effect three months after the deposit thereof.

The High Contracting Parties can at any time denounce the Convention for all or any of the Colonies, Protectorates or territories referred to above. Article 9 hereof applies to such denunciation.

Article 11.—A certified copy of the present Convention shall be transmitted by the Secretary-General of the League of Nations to every Member of the League of Nations and to every non-Member State which signs the same.

The following Bill was introduced in the Legislative Assembly on the 1st February 1937:—

L.A. BILL No. 5 OF 1937

A Bill to amend the Contempt of Courts Act, 1926, for certain purposes.

WHEREAS it is expedient to amend the Contempt of Courts Act, 1926, for the purposes hereinafter appearing; It is hereby enacted as follows:— XII of 1926.

1. This Act may be called the Contempt of Courts (Amendment) Act, 1937. Short title.

2. In the preamble to the Contempt of Courts Act, 1926 (hereinafter referred to as the said Act), the word "subordinate" shall be omitted. XII of 1926. Amendment of preamble to Act XII of 1926.

3. To section 3 of the said Act the following proviso shall be added, namely:— Amendment of section 3, Act XII of 1926.

"Provided further that notwithstanding anything elsewhere contained in any law no High Court shall impose a sentence in excess of that specified in this section for any contempt either in respect of itself or of a Court subordinate to it."

STATEMENT OF OBJECTS AND REASONS.

It has been held by a High Court that the power of punishment provided in section 3 of the Contempt of Courts Act, 1926 (XII of 1926), relates to the contempt of Courts subordinate to it, and that it has no application to the contempt of itself, to punish which it possesses inherent power to pass a sentence without regard to the limit of six months. The original intention of the enactment of section 3

was to restrict the powers of High Courts in the punishment of any contempts whether of themselves or of Courts subordinate to them. The Bill proposes to make the intention clear.

NEW DELHI, N. N. SIRCAR,
The 27th January 1937.

The following Bill * was introduced in the Legislative Assembly on the 1st February 1937:—

I A BILL No. 6 OF 1937.

A Bill further to amend the Indian Income-tax Act, 1922, for certain purposes.

WHEREAS it is expedient further to amend the Indian Income-tax Act, 1922, for the purposes hereinafter appearing; it is hereby enacted as follows.— XI of 1922.

Short title.

1. This Act may be called the Indian Income-tax (Amendment) Act, 1937.

Amendment of section 16, Act XI of 1922.

2. To section 16 of the Indian Income-tax Act, 1922 (hereinafter referred to as the said Act), the following sub-section shall be added, namely:— XI of 1922.

"(3) In computing the total income of any individual for the purpose of assessment, there shall be included—

(a) so much of the income of a wife or minor child of such individual as arises—

(i) from the membership of the wife in a firm of which her husband is a partner;

(ii) from the admission of the minor to the benefits of partnership in a firm of which such individual is a partner;

(iii) from assets transferred directly or indirectly to the wife by the husband otherwise than for adequate consideration or in connection with an agreement to live apart; or

(iv) from assets transferred directly or indirectly to the minor child, not being a married daughter, by such individual;

and

(b) so much of the income of any association of individuals consisting of such individual and his wife as arises from assets transferred to the association by such individual."

Amendment of section 18, Act XI of 1922.

3. To sub-section (5) of section 18 of the said Act the following proviso shall be added, namely:—

"Provided further that where such person or owner is a person whose income is included under the provisions of sub-section (3) of section 16 in the total income of another person that person shall be deemed to be the person or owner on whose behalf payment has been made and to whom credit shall be given in the assessment for the following year."

Amendment of sec. 18, Act XI of 1922.

4. After sub-section (3) of section 18 of the said Act the following sub-section shall be inserted, namely:—

"(3A) Where the shareholder referred to in sub-section (2), or the member of a registered firm or the minor admitted to the benefits of partnership referred to in sub-section (2), or the owner of a security referred to in sub-section (5) is a person whose income is included under the provisions of sub-section (3) of section 16 in the total income of another person, the provisions of sub-sections (1), (2) and (3) shall apply as if that person were himself the person entitled to a refund under those sub-sections."

---

* The Governor General has been pleased to accord the sanction required by section 67 (2) of the Government of India Act.

5 The amendment made in the said Act by section 2 shall not have effect in respect of any income chargeable to income-tax for any year ending before the 1st day of April, 1937. Operation of section 2.

STATEMENT OF OBJECTS AND REASONS.

Reference is made in sections 1 and 4 of Chapter III of the Income Tax Enquiry Report, 1936, to the practices of avoiding taxation by means of nominal partnerships between husband and wife or parent and minor child or by the nominal transfer of assets to a wife or minor child (or to an "association" consisting of husband and wife) when there is no substantial separation of the interests of the assessee and the wife or child. These practices are reported to have become very widespread already, with considerable detriment to the revenue, and there is little doubt that if they are not checked there will be progressive deterioration. The proposals in the Report regarding the aggregation of the incomes of husband and wife go beyond the immediate necessities of the case and to that extent their adoption would involve the admission of a new principle which the Government of India do not desire to establish in advance of the general public discussion of the Report which has been arranged, and the present Bill has been so drafted as to deal only with the abuses to which I have referred.

P. J. GRIGG.

NEW DELHI,
The 29th January 1937.

The following Bill* was introduced in the Legislative Assembly on the 8th February, 1937:—

L.A. BILL No. 7 OF 1937.

A Bill further to amend the Indian Naval Armament Act, 1927, for a certain purpose.

WHEREAS it is expedient further to amend the Indian Naval Armament Act, 1923, for the purpose of giving effect in British India to the Treaty for the Limitation of Naval Armament and for the Exchange of information concerning Naval Construction signed in London on behalf of His Majesty on the twenty-fifth day of March, 1936. It is hereby enacted as follows:— VII of 1923.

1. This Act may be called the Indian Naval Armament (Amendment) Act, 1937. Short title.

2. In the preamble to the Indian Naval Armament Act, 1923 (hereinafter referred to as the said Act), for the words beginning "Treaty for the Limitation of Naval Armament signed at Washington" and ending "signed at London on the twenty-second day of April, 1930" the following shall be substituted, namely:— VII of 1923. Amendment of preamble to Act VII of 1923.

"Treaty for the Limitation of Naval Armament and for the Exchange of Information concerning Naval Construction signed in London on behalf of His Majesty on the twenty-fifth day of March, 1936."

3. In section 2 of the said Act, for clause (c) the following clause shall be substituted, namely:— Amendment of section 2, Act VII of 1923.

"(c) 'the Treaty' means the Treaty for the Limitation of Naval Armament and for the Exchange of Information concerning Naval Construction signed in London on behalf of His Majesty on the twenty-fifth day of March, 1936."

*The Governor General has been pleased to accord the sanction required by section 37 (2) of the Government of India Act.

Amendment of section 4, Act VII of 1923.

4. To section 4 of the said Act the following sub-section shall be added, namely:—

"(4) Any person who, in pursuance of a licence granted under sub-section (1) before the commencement of the Indian Naval Armament (Amendment) Act, 1937, is engaged in building ... of 1937. any vessel of war or in altering, arming or equipping any ship so as to adapt her for use as a vessel of war, or is about to despatch or deliver, or allow to be despatched or delivered, from any place within British India any ship which has been so built, altered, armed or equipped, either entirely or partly, within British India, shall, upon written demand, furnish to the Local Government such designs and particulars as may be required by the Local Government for the purpose of securing the observance of the obligations imposed by the Treaty."

Amendment of section 5, Act VII of 1923.

5. In sub-section (1) of section 5 of the said Act, after the word and figure "section 3" the following shall be inserted, namely:—

"or fails to comply with the provisions of sub-section (5) of section 4".

Omission of the Schedule to Act VII of 1923.

6. The Schedule to the said Act shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

The Indian Naval Armament Act, 1923 (VII of 1923), as amended by Act VIII of 1931, was passed by the Indian Legislature to give effect in British India to the Treaties for the Limitation of Naval Armaments signed on behalf of His Majesty in 1922 and 1930. These Treaties—except for Part IV of the latter—expired on the 31st December 1936, and Act VII of 1923 will consequently cease to have effect unless it is so amended as to substitute reference to the Treaty signed on behalf of the British Commonwealth of Nations and certain other Powers on the 25th March 1936 for the references to the Treaties of 1922 and 1930. The chief characteristics of the Treaty which came into force on the 1st January 1937, and which will remain operative until the 31st December 1942, are limitation in the tonnage of ships and in the calibre of guns and certain new provisions regarding the exchange of information concerning naval construction between the High Contracting Parties. It also keeps alive the principle which has prevailed for the last fifteen years that the naval armaments of the principal Maritime Powers are to be restricted by agreement and makes it possible for the reduction of naval armaments to be further extended when international conditions are more settled than they were when the Treaty was concluded.

The Government of India have agreed to ratify the new Treaty of 1936 and, to give effect to it, they propose to amend the Indian Naval Armament Act (VII of 1923) on the lines of the amendment recently made in the corresponding English Act.

NEW DELHI,
The 6th February 1937.

The following Bill was introduced in the Legislative Assembly on the 10th February 1937:—

L.A. BILL NO 8 OF 1937

A Bill further to amend the Workmen's Compensation Act, 1923, for a certain purpose.

WHEREAS it is expedient further to amend the Workmen's Compensation Act, 1923, for the purpose hereinafter appearing, It is hereby enacted as follows:— VIII of 1923.

1. This Act may be called the Workmen's Compensation (Amendment) Act, 1937. Short title.

2 (1) Section 35 of the Workmen's Compensation Act, 1923, shall be re-numbered as sub-section (1) of that section and in the said section as so re-numbered— VIII of 1923 Amendment of section 35, Act VIII of 1923.

(a) for the words "paid to" the words "deposited with" shall be substituted;

(b) for the words "for the benefit of," where they occur for the first time, the words "which has been awarded to or may be due to" shall be substituted;

(c) after the word "receipt" the word ", distribution" shall be inserted;

(d) for the word "awarded" the word "deposited" shall be substituted; and

(e) for the words "and applicable for the benefit of" the words "which has been awarded to or may be due to" shall be substituted

(2) To the said section as so re-numbered the following proviso shall be added, namely:—

"Provided that no sum deposited under this Act in respect of fatal accidents shall be so transferred without the consent of the employer concerned until the Commissioner receiving the sum has passed orders determining its distribution and apportionment under the provisions of sub-sections (4) and (5) of section 8."

(3) After the said section as so re-numbered the following sub-section shall be added, namely:—

"(2) Where money deposited with a Commissioner has been so transferred in accordance with the rules made under this section, the provisions otherwise contained in this Act regarding distribution by the Commissioner of compensation deposited with him shall cease to apply in respect of any such money."

STATEMENT OF OBJECTS AND REASONS.

Section 35 of the Workmen's Compensation Act, 1923 (VIII of 1923), enables rules to be made for the transfer of sums paid to Commissioners in India as compensation for the benefit of persons abroad or paid to authorities abroad as compensation for persons in India. But it does not provide for the transfer of distribution proceedings when the employer does not object and the dependents are in another country than the one in which the compensation is deposited. The amendment is designed to make this possible, and required, in the first instance, to provide for transfers between Burma and India after separation. At present, distribution proceedings can be transferred from Burma to provinces in India and vice versa under section 21 (2) of the Act; but this will cease to be applicable when Burma becomes a separate country.

F. NOYCE.

NEW DELHI,

"35.
